Not your grandmother's gloves...

But they were made by one! I absolutely am in love with these knitted fingerless gloves accented with a small brooch. These gloves were exclusively knit for Details by the grandma of one of the staff members.

I like them because they not only keep the hands and knuckles warm.. they're a perfect match for chronic 'texters' like me. For more information visit [Details](#) online. I have to say it's the cutest little boutique in Haymarket Virginia.
